SUMMARY

Full Stack Developer with 2 years of experience in creating scalable digital solutions. My expertise in Java, Spring Boot, NodeJs, React, NextJs, and TypeScript, combined with DevOps practices, allows me to work across the entire software development lifecycle. Currently, I work as an AI Software Engineer on the “Aicury” research project and develop freelance projects, focusing on delivering clean and high-quality code.

GOAL

To work as a Junior Full Stack, Back-end, or Front-end Web Developer, applying technical knowledge and interpersonal skills to contribute innovative solutions in collaborative and dynamic environments.

PROFESSIONAL EXPERIENCE

Software Engineer - CNPq Scholarship Holder

Aicury - 07/2025 – present

Work on the validation and security of AI systems using Python, Flask, Docker, CI/CD, and REST APIs, applying best software engineering practices.

Full Stack Developer - Freelance

GGABS TECH & DESIGN - 04/2025 - present

Develop full stack solutions, from prototyping with Figma, front-end and back-end programming, to automated deployment. Additionally, I handle branding, digital marketing, and project management for the brand.

EDUCATION

Internet Systems

Catholic University of Pernambuco (UNICAP)

Start: 03/2023 - Completion: 07/2025

Ensino Médio

Colégio Militar do Recife

Start: 01/2020 - Completion: 12/2022

HARD SKILLS

Backend: Java, Spring Boot, Hibernate, Maven, SOLID, NodeJs, ExpressJs, Sequelize, Python, FastAPI, Flask

Frontend: Javascript, React, Typescript, Angular, NextJs, Vite

Styling: CSS, Sass, Tailwind CSS, Shadcn/ui, Chakra UI

Databases: PostgreSQL, MySQL, MariaDB e MongoDB

Testing: JUnit, Pytest, Jest e testes manuais

DevOps & Infrastructure: Docker, Kubernetes, CI/CD, Jenkins, Github Actions

Agile Methodologies & Tools: Scrum, Kanban, Pair Programming, Jira, Trello, Notion

Design: UI/UX, Figma, Canva, Testes A/B

Versioning & Documentation: Git e Github, Swagger e Apidog

SOFT SKILLS

Proactivity, Creativity, Growth Mindset, Analytical Thinking, Problem Solving, Presentation (Pitch), Leadership, Time Management, Teamwork, Assertive Communication, Adaptability.

PROJECTS

Sempre Nicea - Institutional Website and ERP

Description: Digital repository for academic research and an administrative panel with CRUD operations for managing information and research displayed on the main website.

Technologies used: Java, Spring Boot, Typescript, NextJs, Sass, PostgreSQL, Docker, Supabase, Render e Vercel

Role: Developed the backend with JWT authentication, Spring Security, email sending, storage in Supabase, and documentation with Swagger.
